

SIITME 2026

IEEE 32nd International Symposium for
Design and Technology in Electronics Packaging
28th - 31st October 2026, Târgoviște, Romania

Conference & Exhibition

Workshop/Panel speaker:

Name: Andrei-Cristian POPESCU

Job position: B.Sc. Eng. In Microelectronics,
Optoelectronics and Nanotechnologies Student
Company: *Faculty of Electronics, Telecommunications
and Information Technology, NUST POLITEHNICA
Bucharest*

e-mail: andrei.popescu1409@upb.ro

Short CV

Andrei-Cristian Popescu is a fourth-year student at the Faculty of Electronics, Telecommunications and Information Technology at POLITEHNICA Bucharest, specializing in Microelectronics, Optoelectronics and Nanotechnologies. Alongside his academic studies, he has built a strong profile in research, technical projects and professional leadership, contributing to activities in microelectronics, advanced electronic packaging and energy storage. His commitment to the engineering community is reflected in his role as Section Student Representative for IEEE Romania Section and as Vice-Chair of the IEEE Nanotechnology Council Student Branch Chapter at POLITEHNICA Bucharest. Through these roles, he actively contributes to connecting students with the wider engineering community and promoting opportunities for professional development and collaboration. By combining technical research, student leadership and engagement with emerging technologies, he brings a student perspective to the dialogue between industry and education, with a particular interest in how AI is transforming engineering skills, learning and the future of work.
